GEAR & AXLE Range

The complete gear and axle solution.

The high performance range of Rock Oil gear and axle oils offer total security and performance throughout the whole driveline. All products in the range meet and exceed the latest specifications including GL-5, alongside an entire series of OEM approvals. The axle and gear range has been developed to work in tandem with the latest generation of Rock Oil engine oils. Individually each oil has been specifically designed to cope with increased demands and higher horsepower. Combined they offer unrivalled wear protection, fuel economy benefits, and emission reductions.
