

OFF ROAD

Lubricants Range

Rock Oil has vast off road racing experience with a long history of motorsport involvement, including supporting factory teams both in the UK and Internationally. This involvement at the very highest level ensures that we are at the forefront of lubricant technology. With today's modern off road machinery lubricants have to work harder than ever to ensure optimum performance and reliability. Rock Oil has a sophisticated range of products to cater for all off road applications to include all 2 & 4 stroke machines, gearboxes and suspension systems plus a range of ancillary and support lubricants.

SYNTHESIS XRP OFF ROAD

JASO MA2/MA • API SN

Synthesis XRP off road is developed from 'cutting edge' synthetic base stocks coupled with bespoke additive technology. It offers the ultimate in performance for both engine and gearbox for all high performance 4 stroke off road applications.

Viscosities available:
• PN 03291: 10W-40
• PN 03101: 10W-50
• PN 03362: 10W-60

GUARDIAN OFF ROAD

JASO MA2/MA • API SN

Guardian Motorcycle Off Road 10W-40 is a premium semi-synthetic oil that has been developed to meet the exacting demands of the latest JASO MA2 specification. It offers superb performance levels with outstanding protection to all components and superior resistance to deposits and corrosion, resulting in extended engine/gearbox life and optimum performance. It passes the crucial clutch friction test to JASO MA2 standards, allowing safe, predictable use in wet clutch applications with reduced phosphorous levels for excellent catalyst compatibility.

SYNTHESIS 2 RACING OFF ROAD

JASO FD/FC • ISO-L-EGD • API TC

Synthesis 2 Racing off road is a full synthetic 2 stroke with full JASO FD and TISI approvals. The advanced synthetic base and additives in Synthesis 2 Racing help stop the problems of ring sticking, port blocking and cylinder wear. The phenomenal film and shear strength give exceptional bearing protection and the clean burning qualities maximise the power of the engine.

PN 07145

SYNTHESIS 2 INJECTOR OFF ROAD

JASO FD/ FC • ISO-L-EGD • API TC TISI

Synthesis 2 Injector is a full synthetic 2 stroke lubricant for use in the latest off road injector systems and can also be used as a premix if required. It comes with full JASO and TISI approval. Features: Smokeless, Easy Mixing, Ultra Clean Burning, High Lubricity, High Shear Stability and excellent fluidity. It can be mixed with all other 2 stroke oils except castor based products and will not mix with methanol fuel.

PN 07138

STRAWBERRY TRIAL 2

JASO FD/FC • ISO-L-EGD • API TC

Strawberry Trial 2 is a technically enhanced synthetic lubricant for pre-mix systems. Produced in collaboration with leading factory trial teams. It has been designed to perform in today's demanding trial engines whether on tickover or maximum power. Strawberry Trial 2 provides a smooth, crisp response throughout the entire revolution range, creating a very linear power delivery.

PN 07201

K2 PLUS 2 STROKE

JASO FD/FC • ISO-L-EGD • API TC

K2 Plus is a highly acclaimed synthetic 2 stroke pre-mix racing oil incorporating the most recent innovations in Rock Oil advanced additive technology. K2 Plus has been extensively tested under maximum load racing conditions and is suitable for all applications requiring a high quality pre-mix. K2 Plus is manufactured using a unique low ash, clean burning formula.
