

MOTORCYCLE

ROAD & RACE Range

The **complete** solution for road and race

Rock Oil has vast racing and motorsport experience enjoying many British & World Championship successes, ensuring that they are at the forefront of lubrication technology. With today's modern race and road bikes, lubricants have to work harder than ever to ensure optimum performance and reliability. To achieve these demanding criteria, Rock Oil has succeeded in developing a sophisticated range of products to cater for every application to include all 2 & 4 stroke machines. This pursuit of excellence has resulted in factory approvals by all leading manufacturers.

SYNTHESIS XRP

JASO MA2/MA •
API SN • SAE 5W-30

Developed with a leading superbike racing team, Synthesis XRP extra power is a ground breaking, fully synthetic racing lubricant. Tests on dynos have seen increases of up to 5% in peak power, whilst offering the highest levels of reliability and protection. It is developed from 'cutting edge' synthetic base stocks coupled with bespoke additive technology. It offers the ultimate in performance and protection for all high performance 4 stroke applications, both on the road and on the track.

PN 03210

SYNTHESIS 4 RACING

JASO MA2/MA •
API SN • SAE 15W-50

Winner of many British Championships during development, Synthesis 4 Racing is designed to protect in the extreme conditions of racing. It is developed from the most advanced synthetic base stocks (PAO & Ester) coupled with the latest additive technology to give outstanding benefits & performance. The ultra low volatility reduces consumption and stays in grade longer while phenomenal film strength and shear stability protect the engine. It can also be used where 10W-50 or 15W-50 is recommended.

PN 03100

SYNTHESIS MOTORCYCLE

JASO MA2/MA • API SN

The Synthesis Motorcycle range are high performance fully synthetic motorcycle 4 stroke oils. Combining the purest synthetic base stocks with advanced additive technology to give outstanding performance, reduce wear and keep all engine components clean.

Viscosities available:

- PN 03080: 5W-40
- PN 04600: 10W-30
- PN 03290: 10W-40
- PN 03103: 10W-50
- PN 03363: 10W-60

TRM

JASO MA • API SL •
SAE 20W-60

TRM is a specially formulated synthetic oil containing specially selected large molecule base fluids for use in engines with roller bearing crankshafts and V-engines. Its unique additive package guards against seizure and minimises camshaft and crankshaft wear, whilst the base fluids have the ability to handle extreme pressure and shock loadings. It offers superb thermal stability even at the extremely high temperatures generated by multi-cylinder racing engines. It can be used in both air and liquid cooled applications and is also a superb gear lubricant and is ideal for unit construction engines.

PN 07040

GUARDIAN MOTORCYCLE

JASO MA2/MA • API SN

The Guardian Motorcycle range are premium semi-synthetic oils that have been developed to meet the exacting demands of the latest JASO MA2 specification. They offer superb performance levels with outstanding protection to all components and superior resistance to deposits and corrosion, resulting in extended engine/gearbox life and optimum performance. They pass the crucial clutch friction test to JASO MA2 standards, allowing safe, predictable use in wet clutch applications with reduced phosphorous levels for excellent catalyst compatibility.

Viscosities available:

- PN 01148: 10W-30
- PN 03400: 10W-40
- PN 04770: 10W-50
- PN 04780: 20W-50

GUARDIAN SIGMA

JASO MA • API SL •
SAE 15W-50

Guardian Sigma is designed specifically to meet the exacting requirements of high performance motorcycles. It was developed after tests with Triumph Motorcycles to protect engines with an integrated gearbox, allowing wet clutches to operate, even under the most severe conditions. The benefits of using Sigma include; superb film strength, anti-wear capabilities, shear stability, maximum engine and gearbox protection.

PN 07210

MOTORCYCLE

10W-40

JASO MA • API SL •
SAE 10W-40

Motorcycle 10W40 is a semi-synthetic 4 stroke engine oil, which is suitable for modern high performance motorcycle engines. The advanced additive, high detergent formulation ensures maximum engine protection and superior resistance to deposits and corrosion, resulting in extended engine life and optimum performance. It passes the crucial clutch friction test required to meet the JASO MA specification which allows safe, predictable use in wet clutch applications.

PN 03110

GAMMA

JASO MA • API SG

Rock Oil Gamma is a premium quality mineral, 4 stroke engine oil meeting the exacting demands of classic bikes and modern high performance motorcycle engines where a mineral oil is required. Gamma ensures maximum engine component protection and superior resistance to deposits and corrosion, resulting in extended engine life and optimum performance under the most arduous of conditions. It also passes the crucial clutch friction test required to meet the JASO MA specification, allowing safe, predictable use in wet clutches.

Viscosities available:
• PN 03270: 10W-40
• PN 03280: 20W-50

SYNTHESIS

2 RACING

JASO FD/FC •
ISO-L-EGD • API TC

Synthesis 2 Racing is a full synthetic 2 stroke with full JASO FD and TISI approvals. The advanced synthetic base and additives in Synthesis 2 Racing help stop the problems of ring sticking, port blocking and cylinder wear. The phenomenal film and shear strength give exceptional bearing protection and the clean burning qualities maximise the power of the engine.

PN 07140

SYNTHESIS

2 INJECTOR

JASO FD/FC •
ISO-L-EGD • API TC TISI

Synthesis 2 Injector is a full synthetic 2 stroke lubricant for use in injector systems and can also be used as a premix if required. It comes with full JASO and TISI approval. Features: Smokeless, Easy Mixing, Ultra Clean Burning, High Lubricity, High Shear Stability and excellent fluidity. It can be mixed with all other 2 stroke oils except castor based products and will not mix with methanol fuel.

PN 07130

PP2

JASO FD •
ISO-L-EGD • API TC TISI

PP2 is a high performance semi-synthetic 2 stroke oil. The low ash formulation results in super clean burning with minimum carbon build-up while releasing maximum power. Superior flow characteristics give accurate metering even under sharp throttle openings, offering peak performance and complete protection. PP2 may be used in all auto lube/oil injection systems and as a pre-mix with fuel.

PN 07120

ROAD

2 STROKE

JASO FB • API TC

Road 2 stroke has been developed to provide excellent protection, year round reliability and extreme film strength rarely seen in a mineral based oil. It is equally suitable for pre-mix or injection systems and is approved for all 2 stroke engines, whether liquid or air cooled.

PN 07010

CHAIN LUBE

400ml

FOR O-RING, X-RING &
STANDARD CHAINS

Rock Oil Chain Lube is used in competition, off road and road use. It provides excellent anti-shock and anti-wear protection and is highly resistant to fling. Chain life is also greatly extended.

PN 07080

ROCKEZE

400ml

HIGH PERFORMANCE
MAINTENANCE SPRAY

Rockeze is a light hydrocarbon solvent and has been treated with the most advanced rust and corrosion inhibitors, dewatering agent and friction modifiers. This allows Rockeze to provide superior penetrating and light anti-rust capabilities and for it to be used in limitless applications, ranging from freeing rusty bolts to protecting the finest machined part. Rockeze possesses essential speedy lubrication qualities and can be used as an engine 'damp start', removing wetness from aected areas. Preventing voltage breakdown and allowing the engine to be started.

PN 04070

BRAKE KLEEN

400ml

SPEEDY REMOVAL OF
DIRT & GREASE

Brake Kleen is a sophisticated high performance chlorine free formulation which will not harm clutch or brake friction material. It is completely safe for use over plastic and rubber seals, posing no environmental risks in either vapour or residue. Brake Kleen ensures speedy and effective removal of dirt, grease, brake fluid and lining dust from brake and clutch systems.

PN 60081

ANCILLARY PRODUCTS

The motorcycle - road & race - lubricant ancillary range offers suspension fluids, engine coolants, high performance cleaners, and specialist engine oils.
